# Privacy Filter 4-way adhesive Apple iPhone 17 PRO MAX

Effective privacy protection for your screen.

The DICOTA 4-Way privacy filter is ideal for working in public environments such as libraries, open-plan offices, airports and trains. It protects personal and confidential data by darkening the right, left, top and bottom of the screen from an angle of +/- 30 degrees. A special silicone layer enables easy, bubble-free application and residue-free removal. The filter offers protection against scratches, reduces fingerprints and prevents reflections. It also has an antibacterial surface that inhibits the growth of bacteria, mold, and fungi.

## CHARACTERISTICS
