H950 EQ USB-C®/USB-A On-Ear Headset

Part Number: K97469WW | UPC Code: 0 85896 03851 1

Reliable performance at an affordable price.

Long days filled with calls and virtual meetings can become frustrating when a headset is uncomfortable or difficult to set up. Too often, entry-level headsets ask professionals to compromise - sacrificing comfort or ease of use to stay within budget.

The H950 EQ USB-C®/USB-A On-Ear Headset is built to remove those trade-offs. It offers a lightweight, comfortable fit together with simple plug-and-play connectivity that easily works across devices.

With reliable call quality at an accessible price, the H950 EQ is a practical, everyday headset.

- Plug-and-play USB-C® connectivity with USB-A adapter included
- Environmental noise-cancelling (ENC) boom mic reduces background noise for clearer calls
- Convenient flip-to-mute boom microphone
- In-line controller adjusts volume, manages calls*, playback and voice assistant access
- Adjustable headband and soft on-ear cushions
- Sidetone lets you hear your own voice naturally while speaking
- Compatible with Microsoft Teams, Zoom and more on Windows, macOS and ChromeOS
- Maximum volume limited to 100dB (EN 50332 compliant) to help protect hearing
- Plastic contains 31% post-consumer recycled (PCR) content**

* Call controls work with mobile cellular calls only and are not supported for UC or VoIP applications (such as Microsoft Teams, Zoom or Webex).

** Excludes printed circuit board (PCB) assembly.

H950 EQ USB-C®/USB-A On-Ear Headset

Part Number: K97469WW | UPC Code: 0 85896 03851 1

Simple Plug-and-Play Connection

Delivers reliable plug-and-play connectivity via USB-C® with a USB-A adapter included for broader device compatibility. The 1.8m (6') cable offers flexibility to move at your desk without unplugging.

Clear Calls in Noisy Environments

The built-in environmental noise-cancelling (ENC) boom microphone reduces background noise so your voice comes through clearly, even in busy or loud environments.

Instant Mute & Quick Controls

The flip-to-mute boom arm allows you to mute instantly by rotating the mic upward. The in-line controller lets you adjust volume, manage calls*, control playback and access supported voice assistant features without touching your device.

Comfortable Design

Designed for extended use, with an adjustable headband for a secure fit and soft on-ear cushions that provide hours of comfort.

* Call controls work with mobile cellular calls only and are not supported for UC or VoIP applications (such as Microsoft Teams, Zoom or Webex).

Copilot AI Assistant Integration*

A dedicated button provides quick access to Windows Copilot and enables voice dictation. With compatible setups, the button can be used to activate supported Copilot voice commands.

Sidetone & Noise Reducing Earcups

Sidetone lets you hear your own voice while speaking, helping you talk more naturally and confirm that your microphone is active. Padded earcups help reduce ambient distractions.

Broad Compatibility

Works with popular conferencing platforms such as Microsoft Teams, Zoom and more. Plug-and-play compatibility with Windows, macOS, ChromeOS, USB-C® tablets and smartphones makes setup simple.

Safe Listening Volume Limit

Maximum output capped at 100dB to comply with EN 50332 safety standards. This volume limiting feature helps protect your hearing by preventing sound levels from exceeding a safe threshold during extended use.

EQ Attributes

The plastic in the H950 contains 31% post-consumer recycled (PCR) content** and it is shipped in FSC® certified packaging.

* Copilot key functionality is supported on Windows PCs where the Copilot app is available.
** Excludes printed circuit board (PCB) assembly.
