

HDMI Port Blocker Key - Pack of 4 Blockers, Blue

No.: 40320

Protects HDMI ports against unauthorised access

Description

- Physically prevent access to a HDMI Port
- Quick and simple to use
- Up to 4 blockers can easily be stored inside the key
- Pack of 10 blockers (without key) are also available
- 2 Year Warranty

The Lindy HDMI Port Blockers are useful little devices that can be used to physically prevent access to HDMI ports. With the HDMI Port Blocker Key, the user can quickly block any open device ports and easily prevent users from connecting cables, devices or inserting foreign objects without permission.

The semi-permanent HDMI Port Blocker is made up of a moulded plastic blocking cap that plugs securely into the HDMI port with a special insertion key. The blocker latches into the port just as a normal HDMI cable would and remains in place until removed using the insertion key.

Designed to help protect against unauthorised access to IT or AV equipment, as well as preventing unintentional or malicious damage to ports. It can also act as a visual cue, showing inactive or disconnected ports, ideal for use in schools, office or other public sector environments.

The key not only acts as the insertion and removal tool for the HDMI Port Blockers but also serves as a compact storage solution, ideal for IT administrators or facility managers managing multiple devices. This all-in-one design adds an extra layer of convenience to an already practical and efficient physical security tool. Up to four HDMI port blocks can be conveniently stored inside the specially designed key, making it easy for users to carry multiple blockers and use them as needed.

To use, simply attach a blocker to the key and insert it into the HDMI port. Release the sliding mechanism on the key to leave the blocker in place. To remove, simply insert the key back into the blocker and pull away.*

Security Note: The Port Blockers will only act as a basic physical & visual deterrent to tampering. It will not prevent a determined attacker, intent on gaining physical access to a HDMI port.

*Slide the button fully back while keeping your finger pressed on it, then pull the key straight out.
When the button is slid fully back, the wings at the top of the key open to their widest and provide maximum leverage to remove the lock.

Technical details

Connectors

Port Interface: HDMI

Physical Properties

Dimensions (approx.) WxDxH: 69x19x12mm (2.71x0.74x0.47in)
Housing Material: ABS
Net Weight: 0.01kg (0.02lb)
Colour: Blue

Miscellaneous

Packaging Type: Polybag
Packaging Dimensions: 133 x 144mm (5.24 x 5.67in)
Gross Weight: 0.012kg (0.03lb)
Warranty (Years): 2
Product Compliance: RoHS, REACH & California Proposition 65

Package Contents

1 x HDMI Port Blocker Key (Blue)
4 x HDMI Port Blockers (Blue)
