To whom it may concern,

This letter is to verify that the chipsets used on the following Kensington presenters support the Advanced Encryption Standard (AES) which can provide users the most secure electronic data encryption standards in use today.

Kensington® Ultimate Presenter™	K75233EU
Kensington Wireless Presenter (without Laser)	K33373EU
Kensington Wireless Presenter with Red Laser	K33374EU

The Advanced Encryption Standard, established by the National Institute of Standards and Technology (NIST), is a specification for the encryption of electronic data and has been widely adopted by the United States government and other countries around the world to protect confidential data and information.

If you have any questions, please feel free to contact Kensington local reps for further assistance.

Sincerely,

Feman Liu

Global Product Manager
