

Data Sheet

FUJITSU Accessory Keyboard KB951 PalmM2

Your hand Is Your Key

The KB951 palm vein keyboard is a modern, slim line USB keyboard featuring Fujitsu PalmSecure™ technology with an integrated palm vein sensor. PalmSecure™ is a cutting-edge authentication system using biometric technology that authenticates users based on vein pattern recognition rather than iris scanners or fingerprint readers. As veins are internal and have a wealth of differentiating features, attempts at identity theft are extremely difficult, enabling a high level of security. This extremely reliable, high-speed input device is the best choice when you don't have a PC or notebook with an integrated palm vein sensor.

Features at a glance

- Integrated palm vein sensor to securely unlock your PC or laptop
- Spill-resistant keyboard
- Low noise
- 12 additional multimedia keys including an on/off button

Ergonomics

- Extremely slim, space-saving design
- Palm rest included for better ergonomics

PalmSecure™ benefits

- High accuracy: PalmSecure™ has a proven false rejection rate of 0.01 percent and a false acceptance rate of less than 0.00001 percent. No other system in the world can match this performance.
- Hygienic and non-invasive: contactless scanner
- Easy to use: Scanning is intuitive and people feel no mental resistance to it.

Software requirements

- FUJITSU Workplace Protect – local secure authentication solution
- FUJITSU PalmSecure™ ID Login – improves password-based Active Directory login network-wide with additional biometric technology

Keyboard KB951 PalmM2

Technical specifications

Technology	Wired USB Keyboard
Special features	USB keyboard with integrated PalmSecure sensor (type MP2) 12 additional multimedia keys incl 1 Power key (ACPI key, depending on ACPI configuration of operating system) Spill resistant design for liquid spill-over Non-abrasive laser inscription Windows keys Sensor size ca 20.6 x 20.6 mm Capturing distance palm to sensor ca 60 mm Light environment:natural (sun) light below 3000 lux Fluorescent LED light below 3000 lux Halogen/incandescent lamp below 700 lux Download driver for PalmSecure sensor from http://support.ts.fujitsu.com/ Fujitsu Workplace Protect is recommended for PalmSecure
