

Keyboard wired

00182678 "MKC-650" Mechanical Office Keyboard, Extra-Long Cable, black/anthracite

Highlightstext:

- PC keyboard with mechanical switches for easy operation and pleasant feedback when typing
- Tilt adjustment allows the position to be adjusted for greatest comfort
- For a pleasant writing position: ergonomically rising design prevents excess strain and pain in the arms, shoulders and neck
- Backlight for easy operation in the dark
- Laser-etched buttons for a high resistance to wear
- The full-format keypad provides you with the full-sized, familiar keyboard standard
- Control multimedia functions at the press of a button via the secondary assignment of Fn keys - without having to involve the tedious steps of changing system settings
- Robust and durable: slimline keyboard with sturdy metal housing and long-life keys (50,000,000 keystrokes)
- Universal connection option via USB-A plug for connecting to laptop, computer, etc.
- The feet on the computer keyboard are foldable, so that the height can be adjusted as desired
- Quiet keyboard for relaxed and concentrated work in the home office and shared office
- Ergonomically shaped keys make comfortable working over prolonged periods of time easier
- Linear switches for fast keystrokes
- Anti-ghosting for reliable and fast response times for effortless typing
- Plug in and start typing: thanks to plug-and-play, no driver installation is needed
- Wired and flexible: the PC keyboard has an extra-long USB cable of 180 cm, which facilitates optimal workstation design - perfect for office equipment and mobile working
