SOTI ONE

ONE PLATFORM CONNECTING EVERYTHING

The SOTI ONE Platform connects all aspects of your business-critical mobile operations: app development, device deployment and management, diagnostic intelligence, Internet of Things (IoT) management and community support.

BREAK DOWN SILOS	**INTEGRATE EVERYTHING**	**MAKE SMARTER DECISIONS**
End-to-end visibility helps to eliminate downtime and manage all mobile and IoT devices in one place.	See how all aspects of your mobile strategy connect with each other to maximize device uptime.	From app usage to location tracking to cellular coverage, use irrefutable data to level up your mobile operations.

The SOTI ONE Platform reduces the cost, complexity and downtime related to business-critical mobile operations.

SOTI SNAP

SOTI Snap is a cross-platform mobile app development solution built for businesses. It empowers organizations to build the mobile apps they need quickly and cost-effectively, without the need for specialized resources.

SOTI MOBICONTROL

SOTI MobiControl makes EMM easier than ever before. It empowers companies to securely manage any device or endpoint with any form factor and any operating system (OS) throughout their entire lifecycle.

SOTI XSIGHT

SOTI XSight enables the rapid resolution of app and mobile device issues. By leveraging advanced diagnostics and analytics, IT administrators can improve performance and reduce operating costs of business-critical mobility.

SOTI CONNECT

SOTI Connect is an IoT solution built for business that provides complete lifecycle management of IoT devices within an organization.

SOTI IDENTITY

SOTI Identity enables simple and secure access to the SOTI ONE Platform suite of solutions with centralized user authentication, single sign-on (SSO) and role management.
SOTI CENTRAL

SOTI Central is an online community for SOTI customers and partners, and makes it easy for customers to connect, communicate and collaborate with product experts and other solutions providers.

SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY

Get the right devices in the right hands of the right workers and keep them up and running at peak efficiency. Simplify app development and deployment while integrating with critical backend systems.
