Protective Case

For Fairphone 3 / 3+

The Fairphone 3 Protective Case is slim, lightweight and soft, yet sturdy enough to survive unexpected shocks and drops. Made with 37% biomaterials and non-toxic plastic, it wraps carefully around the edges of your screen, creating an airbag effect for maximum protection. With precise cutouts and responsive button covers, this subtly designed case is purpose-built to help your Fairphone 3 last as long as possible.

Screen protector

For Fairphone 3 / 3+

Fairphone screen protectors are designed to help your Fairphone 3 / 3+ last as long as possible!

The 9H tempered glass is highly durable, providing excellent scratch resistance and even protecting against low-level drops. A special surface coating reduces fingerprints, and the curved edges round out the discrete design. Our screen protectors come in two filter-versions (blue light & privacy); both are easy to apply and remove.

Privacy screen protector serves double duty to keep your display in pristine condition while also ensuring that no one can see what's on your screen but you.

Blue light filter screen protector filters out blue light to offer triple the protection: It protects your screen from scratches, protects your eyes from strain, and protects your sleep while maintaining your screen's colors.

Fairphone Modular Earphones

Fairphone modular headphones with dual dynamic drivers deliver a high-quality, balanced sound, while the memory foam earbuds provide increased comfort and noise isolation. The 45° angled audio plug provides strain relief to prevent the wires from breaking easily. Fairphone earphones are modular, so if the cable frays over time, you only need to replace the cable. Using gold plated MMCX connectors, it can be replaced within seconds.

USB-C cable

The Fairphone 3 / 3+ charges via a USB-C connection - the new industry standard for smartphones.

The Fairphone USB-A to USB-C Charging Cable is a reliable and stylish charging cable. It is braided and USB-IF certified, meaning it's a strong, high-quality cable, more durable than a standard charging cable and safe to use.

Cable length 1.2m

**Incompatible with Fairphone 1 and 2*
