

Confident handling of e-mails.

Mimecast and Bechtel | Experienced in safety

Cloud Email Security

Communicate securely.

The Mimecast Cloud enables you to easily and efficiently manage the latest email threats. Multi-layered modular protection ensures that you can communicate securely at all times.

Tailor the platform to your business needs and ensure that your users can be productive and secure.

DMARC

Analyzer Prevent brand abuse, fraud and gain comprehensive visibility into your email channel with Mimecast DMARC Analyzer.

Cloud Email Archiving

Easily protect, manage, and recover data.

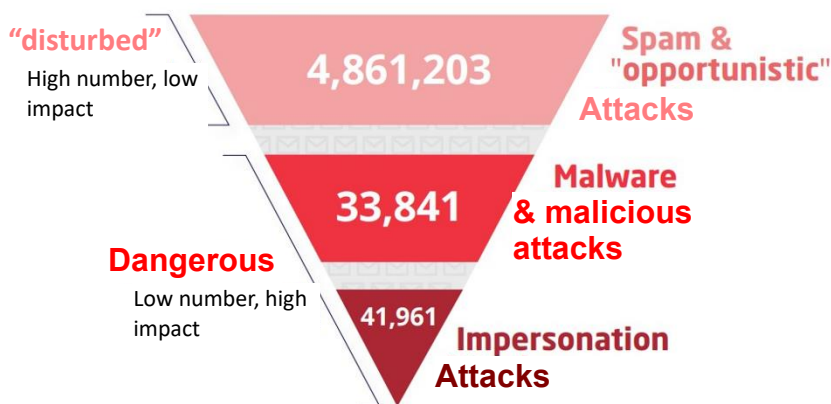

With the Mimecast Archiving Platform, you'll find the perfect companion to securely meet your legal requirements when dealing with emails.

Take advantage of the high retention times in the Mimecast Cloud and search your data in a matter of seconds.

Recover lost emails with little effort with built-in case management and eDiscovery capabilities.

Bechtel Managed Service – Easy connection, great benefits

Enjoy the benefits of the Mimecast platform paired with Bechtel's implementation and support services.

Email vulnerability assessments compare the effectiveness of Mimecast's email security services with others. Over the course of 2021, Mimecast re-scanned 75,436,482 emails that were originally scanned by other vendors and deemed safe.
