

Nokia 225 4G

It's the little things that matter

A modern feature phone with Bluetooth. Now even more pocket-friendly.

Boasting a compact design with modern touches, Nokia 225 4G makes quite an entrance. It's got durability. It's got Snake. And, of course, it's got a battery that lasts. Get the music going with Bluetooth® connectivity and get snapping with the rear camera.

Say "goodbye" to boredom

Hook your Nokia 225 4G up to Bluetooth® speakers or earbuds and get the tunes going with the FM radio. Up for a challenge? Fire up the Snake game. Feeling creative? Get snapping with the rear camera.

Day in, day out.

Charge less and live more. With plenty of battery life, Nokia 225 4G can power on and on for days.

Mini but mighty

All of that good stuff packs into the modern pocket-friendly design of Nokia 225 4G. And thanks to its polycarbonate shell, it can take a few knocks – just like the old phones.

If it's important, they'll call or text.

We had fewer apps in the noughties. Fewer channels to be present on. But were we any less in touch? Strip away today's notifications from likes, shares, and comments, and what you're left with are conversations with people you care about the most.
