Get ready for heaps of fun with HMD T21! Dive deep into entertainment on the clear 10" display and loud, clear audio. Feel the creative vibes with active pen support, and amp up productivity with more screen real estate for your computer. And, it's here to stick around – the long-lasting battery that can go for 4 years of charges¹ before any noticeable power loss.

Built to outlast boredom

The word “bored” is not in the vocabulary of HMD T21. Its big display and immersive audio make sure you're in for a good time, whatever it maybe you're doing. It won't break stride from minor knocks, and its long-lasting battery won't have you scrambling for a power outlet

Fortress of security

Bank, surf, and shop online fearlessly! With security updates until the summer of 2027, we've got your back in the digital realm.¹

Your versatile buddy

Whether it's business or pleasure, HMD T21 has your back. Get creative with active pen support² or use it as a second screen for your Windows PC. HD video calling? Oh, we've got that covered too.

Learn and play safely

Google Kids Space is the cherry on top – a space designed to nurture your kid's curiosity and creativity. Explore their interests with recommended apps, books, and videos, all of which is easily managed by Family Link Parental Controls.

¹Battery has been tested by HMD Global to maintain at least 80% of its original capacity after 800 full charging cycles. If charging your device every other day, this means up to 4 years of battery life. ²Compatible with active pens using WGP technology. ³From the global launch date of HMD T21. ⁴Pre-installed system software and apps use a significant part of memory space. ⁵Battery has limited recharge cycles and battery capacity reduces over time. Eventually the battery may need to be replaced.
