Surface Laptop 13.5 Privacy Filter

Article number: 4830254

Protect important data and documents from unauthorized, prying eyes. This privacy filter helps to safeguard sensitive data and personal information, thus enabling relaxed working on business trips as well as in public places. Micro louvers darken the image smoothly, without stripes, making it impossible for others to see texts or images on the display from the side. Additionally, the film protects the display from dirt, scratches, or fingerprints. Thanks to the included adhesive mounting strips, the protective filter is easy to apply and just as easy to remove.

Highlights:

- Magnetic attachment
- Privacy protection from a viewing angle of 60 degrees.
- 73% UV protection, reducing eye strain from the screen.
- Undisturbed work on confidential data.
- Time-saving due to productively used travel time.
- Durable due to scratch protection.
- Clear view and high color fidelity always.
- Also available in other sizes and formats.
