Highlights at a glance

Gateway for integrating LED lights via Zigbee 3.0 and DECT ULE

Control via FRITZ!App Smart Home or FRITZ!Fon

Integrates LED lights via Zigbee

Register new Zigbee/DECT ULE devices at the touch of a button

Increases the number of DECT ULE devices you can use in the Smart Home

Manage and operate all registered devices in the FRITZ!Box user interface

A wizard helps with installing LED lights registered at other base stations.

New features available via free updates

Features

Zigbee 3.0 compatible, AES 128-bit encryption

Controls compatible Zigbee devices

A stable connection to the FRITZ!Box via Wi-Fi (2.4 GHz) or gigabit LAN

Charger devices using the USB port (500 mA)

Note

The FRITZ!Smart Gateway's Wi-Fi function is only intended for connecting to a FRITZ!Box and does not support Wi-Fi repeating or the registration of other Wi-Fi devices.

The FRITZ!Smart Gateway's DECT function is intended exclusively for connecting DECT ULE/HAN FUN devices. Registering DECT telephones is not possible.
