

Passive holder

Fits only F110 devices from Generation 1-5.

Item no: 510813

EAN Number: 7320285108134

With your surfpad in a holder attached in your car you will always have it within easy reach. Safe, neat and convenient! You can connect e.g. a charging cable to the surfpad when it is in the holder.

It is easy to put the surfpad into place in the holder, and to take it with you when leaving the car.

Tablets (Surfpads) should not be installed onto a car's dashboard if they block the view or block key controls. ProClip (Brodit's vehicle mounting bracket) is designed for installation of smaller devices like mobile phones and GPS devices, ProClip is not designed for large devices like tablets. In some vehicles the ProClip has an extra firm fit and can then be used also for installation of a tablet. If you want to place a tablet onto the car's dashboard, each combination of tablet-car must be examined in detail by you in order to determine if such an installation is possible in the specific case. Consideration should be given to the position and how firmly the ProClip is in place, as well as the size of the tablet you wish to use. Brodit will not give any recommendations for such installations.

An installation of a tablet onto a vehicle's dashboard is always done on the customer's own responsibility. Brodit recommends to use tablets on the car's headrest, installed onto a Brodit headrest mount.

Fits the following models:

Getac F110
