## USB Type-C Dock HDMI/VGA/DP

Article number: 4382189

The docking station for the office and on the go. Compact, lightweight and convenient, it adds multiple video and USB ports to your computer, including a USB-C port with Power Delivery. The non-slip coating on the underside means the dock stays where you want it. Simply connect all your devices at once using the short stowable USB-C cable. The monitors can be mirrored or extended when using Windows. If the dock is used with macOS, the additional monitors can only mirror content, not extend it. A USB-C AC adapter is required to power the notebook (Power Delivery) - Not included. To both use the monitors' functions and power delivery, the USB Type-C connection of your notebook must support DP alt mode (MST) and USB Power Delivery or Thunderbolt. **Please note:** The dock needs up to 7.5W for self use. Use a power supply unit with sufficient power. (E.g. 65 W power adapter, only 57.5W goes to the notebook).

- Compact and lightweight USB-C docking station, 127 x 63 x 13 mm
- VGA, HDMI and DisplayPort video ports
- 2 x USB 3.0 ports for peripherals
- 2 x USB-C ports - 1 x for Power Delivery and 1 x for USB-C devices
- Power Delivery supports power supply up to 100 W
- Short, stowable USB-C connection cable, 120 mm
- Non-slip underside
- 4K resolution at 30 Hz possible via DisplayPort or HDMI (extended display)
- 2 monitors can be simultaneously connected with a resolution of 1080p at 60 Hz (regardless of the combination)
- 3 monitors can be simultaneously connected with a resolution of 720p at 60 Hz
- Just 95 g light - Ideal for on the go
