

ThinkVision MC50 Monitor Webcam

CLARITY FOR YOUR BUSINESS VISION

THE PLUG-AND-PLAY WEBCAM WITH SMART SECURITY

Add clarity to your business vision with Lenovo ThinkVision MC50 Monitor Webcam. This feature-rich webcam adds easy functionality to your daily operations when paired with compatible monitors¹. Capturing 1080p RGB video images with its 1/2.9-inch RGB sensor, MC50 delivers clear images for all your videoconferencing needs. Its wide 90° field of view fits your content comfortably in the frame, while the cam swivels -45° to 225° and tilts +/-30° up and down. Thanks to Lenovo's proprietary Smart Traffic Light, which automatically turns on a tiny light when you are engaged in a meeting, and a physical camera shutter, you can say goodbye to privacy concerns. MC50's built-in dual microphones with noise cancellation provide clear audio that you can count on, captured up to 2 meters away.

¹ MC50 is compatible with selected ThinkVision P & T Series -20 generation models.

FEATURES OF THINKVISION MC50 MONITOR WEBCAM

Visually smarter

ThinkVision MC50 Monitor Webcam makes doing business smarter and smoother. Its 1080p resolution RGB camera captures Full-HD detail for when your task calls for clarity. If you're videoconferencing from home or a tidy corner of a café, the MC50 projects real, quality video. Let others know when your audio or video is live, thanks to Lenovo's patented Smart Traffic Light; a red light illuminates whenever the camera accesses an image or sound. Enjoy a comfortable, flexible setup by tilting up to +/-30° and swiveling the camera -45° to 225° to be in the position for your needs. Capture a wide 90° view, perfect for larger conferencing setups.

Audibly clearer

When it comes to Videoconferencing, the sound is every bit as critical as the image. MC50's built-in dual microphones work in tandem to actively cancel noise so that your voice comes across loud and clear every time while background sounds are silenced. The camera's microphones accurately pick up your voice within a range of 2 meters but filter out unwelcome distractions.

Simply safer

With MC50, peace-of-mind goes hand-in-hand with plug-and-play. When you need privacy, the webcam's physical shutter closes in front of the lens so others can't see you. Its other key security feature is its anti-theft locking functionality that anchors the camera to your monitor and can be removed with a physical key. It's easy to connect MC50 to your monitor through a simple USB connection with a one-step plug-in.

INSTALLATION GUIDE

Locks securely with your ThinkVision Monitor

Attach it to the grill on the monitor's backside.

Twist the 'lock' with the 'Locking Key' to fasten securely.

The webcam is locked when the red line aligns with either of the lock icons, on the left or right.
