

Targus® Antimicrobial Stylus Pen for all Touchscreen Devices

- Functional stylus to minimise physical contact when sharing touchscreen devices, whilst Targus® DefenceGuard™ Antimicrobial Protection technology works continuously to prevent growth of microorganisms on your stylus
- Comfortable to use and extremely lightweight (approx. 20 g) yet perfectly balanced
- Fully Compatible with all capacitive touch screen devices (Tablets, smartphones or touchscreen laptops)
- Type accurately and comfortably with soft, durable rubber tip, which also prevents damaging the touchscreen
- Improves your experience with applications for sketching, note taking, photo editing, etc.

Targus® Antimicrobial Protection is an infused protective finish to the material that creates a cleaner surface and protects the stylus. Unlike topically applied sprays, Antimicrobial Protection is infused into the material and works continuously to prevent the growth of microorganisms.

The Targus Stylus for all media tablets such as Apple iPad®, Samsung Galaxy Tab® and many others, makes it easy to take notes, draw or simply turn a page. The stylus features a durable rubber tip that won't scratch the touch screen and allows the user to type accurately and comfortably. The stylus engages directly with your electronic, touch-screen device, requires no power or software to operate and instantly works right out of the box.

*Antimicrobial product protection is limited to the device itself.

This stylus has been treated with a biocidal product. Active ingredient: Silver Phosphate Glass (nano-).
