

CAR CUP MOUNT

MOUNT YOUR SMARTPHONE IN CAR

The Car Cup Mount provides a safe and simple way to mount your smartphone for a car trip. This cradle fits securely in your car's cup holder and safely positions your compatible smartphone within view--no suction cup or adhesive required.

VIEW IN PORTRAIT OR LANDSCAPE

The Cup Mount can be rotated 360 degrees so you can position your smartphone in either portrait or landscape mode. Portrait mode is ideal for charging, listening to music, and hands-free phone calls, while landscape view makes using your favorite navigation apps easier. You can also tilt the mount 90 degrees so your smartphone lies flat, keeping it out of the way of your car's controls.

EXPANDABLE BASE FOR SECURE FIT

The mount's base expands to fit any size cup holder, so you can use in any vehicle. And because there's no adhesive backing, you can easily move the Car Cup Mount between vehicles.

At A Glance:

- Mount smartphone in your car's cup holder
- Rotates 360 degrees for portrait or landscape view
- Tilt phone 90 degrees to lay flat
- Base expands to fit any cup holder
- Cable management prevents tangled cables
