The New Hybrid Docking Station: Universal Compatibility - As the first-to-market universal dock that supports four 4K displays, or a single 8K display plus two 4K displays, via a single USB-C cable, and designed with both DP Alt Mode and DisplayLink technologies, it has universal compatibility in its DNA to work with practically any PC host connection: Windows®, macOS®, and other major operating systems\*.

Prime Display Real Estate - Whether you need to connect to one monitor or four (ok, even two or three), this dock supports your needs. Leveraging both HDMI and DisplayPort video technologies, you can connect up to four 4K displays, or experience the grandeur of 8K resolution on a single display alongside two 4K displays! Experience unbeatable compatibility all in one place using a single docking station.

The Ultimate Power Play -The USB-C Hybrid/Universal 4K Quad Docking Station provides up to 100 W to simultaneously charge your PC, while also offering a second USB-C port (7.5 W) and USB-A port (up to 12 W) to power smaller accessories, like a phone.

All About the Ports - With one USB 3.2 Gen 2 Type-C port, one USB 3.2 Gen2 Type-A (fast charging) and three USB 3.2 Gen 1 Type-A ports, it's simple to connect the latest keyboards, exterior drives, and other peripherals to customize your workspace experience. The dock also includes a fast-charging port for charging your smartphone, tablet, or other devices.

Space-Saving Design - Compact and sleek, this dock packs a punch in a small form factor. The dock is also equipped with a VESA bracket mounting provision, which allows for use of the Targus VESA Mount. Bracket (ACX003GLZ – sold separately) to hold your dock behind your display for even greater space savings.

\* compatibility varies by host/operating system
