Logitech® Wireless Desktop MK710

The Logitech® Wireless Desktop MK710. Where comfort and productivity go hand-in-hand. This low-profile keyboard features concave Logitech Incurve keys™ that position your fingers properly, and their softly rounded edges invite your fingertips to glide from key to key. Up to three-year battery life for both keyboard and mouse practically eliminates the need to replace batteries*. Hyper-fast scrolling lets you fly through long documents or shift to precise click-to-click scrolling. An LCD dashboard lets you know – for example – that Caps Lock is on before you type an entire page. And the tiny Logitech Unifying receiver stays in your laptop and lets you connect another compatible wireless mouse or number pad. * Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary. Mouse battery life may vary based on user and computing conditions.

Feature

Logitech® Wireless Desktop MK710

Where comfort and productivity go hand-in-hand

- Up to three-year battery life for both keyboard and mouse*
- Logitech Incurve keys™ and cushioned palm rest
- Hyper-fast scrolling

Logitech® Incurve keys™ and cushioned palm rest

This keyboard features Logitech® Incurve keys™ and a cushioned palm rest. Concave keys position your fingers properly, and their softly rounded edges invite your fingertips to glide from key to key, hour after hour. Keys so comfortable, you'd think they were custom-made to fit your fingers.

Hyper-fast scrolling

Hyper-fast scrolling lets you fly through long documents with the nearly frictionless scroll wheel, or shift to precise click-to-click scrolling to navigate lists, slides and image collections.

LCD dashboard

An LCD dashboard gives you at-a-glance icon status of your battery, Caps Lock, Scroll Lock and Num Lock, so you won't skip a beat while typing.
