

BlackBerry Intelligent Security. Everywhere.

CylanceGUARD

Focus on your business, we'll keep it secure

SOLUTION BRIEF

PEACE OF MIND SECURITY

Managed detection and response (MDR) helps organizations stop sophisticated cyberthreats looking to take advantage of gaps in their security program while dramatically reducing overall investment.

#1

SOC X Champion against 49 other teams in real-world adversary scenarios.

15 YEARS

of threat hunting experience on average for BlackBerry analysts.

85%

less expense compared to building a SOC on your own.¹

BE SECURE IN WEEKS, NOT MONTHS

From the largest multi-national corporations to the smallest of local businesses, world-class cybersecurity is more than a nice-to-have—it is mission-critical. Yet as even the largest corporations continue to struggle with cybersecurity complexity and the lack of skilled practitioners, how can organizations remain ahead of the adversary with limited resources? CylanceGUARD® delivers the world-class security outcomes organizations require at a fraction of the time and cost of developing an in-house security operations center.

EXCEPTIONAL EXPERTISE

World-class CylanceGUARD analysts are available 24x7x365.

COMPREHENSIVE SOLUTION

Secure any infrastructure against attacks in a fraction of the time.

REVOLUTIONARY TECHNOLOGY

Industry-leading AI provides better initial attack prevention and accurate detections.

FREE UP IT AND SECURITY STAFF

CylanceGUARD IR and threat hunting experts take the burden off security teams.

THE MODERN APPROACH TO MANAGED EDR

CylanceGUARD is how modern security teams improve cyber resilience.

ALWAYS-ON ATTACK RESILIENCE

Alerts and incidents are monitored and managed 24x7x365. IR and threat hunting teams continuously update and communicate, providing full visibility and transparency.

WORLD-CLASS TEAM OF CYBERSECURITY EXPERTS

The BlackBerry threat hunting and incident response team consists of experts with an average of 15 years of experience in threat hunting. No other MDR solution has the same proprietary threat intelligence backed by such vast expertise.

STRATEGIC SECURITY PLANNING

BlackBerry helps organizations plan and prepare for any security incident with CISO-defined strategies and processes designed to meet board approval.

FULLY MANAGED ONBOARDING AND SETUP

Assess, plan, and implement, leveraging the best practices and flexibility of the seasoned CylanceGUARD services team.

WHY BLACKBERRY?

ADVANCED ARTIFICIAL INTELLIGENCE

Improve threat detection accuracy, increase the speed of investigations, and remarkably improve response capabilities via Cylance® AI automation.

CLOUD-NATIVE DEPLOYMENT

Quickly and easily scale, adding users or enabling access to new applications to drive performance and efficiencies.

FLEXIBLE AND ADAPTIVE

Work directly with BlackBerry advisors during setup and configuration (available on iOS®, Android™, macOS®, and Windows®).

¹ How to Choose a Managed Extended Detection and Response Solution, BlackBerry, 2022

BlackBerry (NYSE: BB; TSX: BB) provides intelligent security software and services to enterprises and governments around the world. The company secures more than 500M endpoints including over 215M vehicles. Based in Waterloo, Ontario, the company leverages AI and machine learning to deliver innovative solutions in the areas of cybersecurity, safety and data privacy solutions, and is a leader in the areas of endpoint security, endpoint management, encryption, and embedded systems. BlackBerry's vision is clear - to secure a connected future you can trust.
