Product Description

Introducing the new **Mast Stand**, a durable countertop stand crafted from steel and aluminum, **compatible with all of our enclosures and mounts** with its VESA 100-100 and 75-75 standards. It supports **devices with screen sizes up to 20 inches and 10 lbs (4.5 kg)**, providing versatile and secure mounting for your tablet.

The stand offers full reverse screen tilt for optimal viewing angles in various settings.

Secure your device directly onto a counter with integrated cable management and a charging cable trap for a tidy setup.

The optional adhesive swivel base allows for smooth rotation, and the optional stability base is recommended for enclosures with tablets over 11 inches.

Whether in portrait or landscape mode, the Mast Stand ensures a professional and stable display.
