

Logitech Rugged Combo 4 Keyboard Case for iPad (10th generation)

TAKE LEARNING TO THE NEXT LEVEL

Rugged Combo 4 is the perfect partner for iPad (10th gen) in the classroom—a slim and secure kid-proof case that protects against drops, spills and scratches combined with a durable pry-resistant keyboard. Now you can easily bring iPad into your curriculum to better support students' learning no matter the grade level or assignment.

WHAT'S IN THE BOX

- Rugged Combo 4 Keyboard Case
- Documentation

FEATURES

- Proprietary shock-absorbent technology and materials help Rugged Combo 4 exceed military standard drop tests for new levels of protection from accidental falls and other mishaps.
- Smart Connector technology allows students to immediately engage with content. The keyboard magnetically clicks in and connects instantly - no complex Bluetooth® pairing or charging required.
- With four use modes (Type, Write & Sketch, Read, & View), students can effortlessly type notes, watch videos, sketch diagrams, read e-books, take photos, and more.
- Forget hunting around the screen or in menus to perform basic commands — Rugged Combo 4 features a full row of iPadOS shortcut keys.
- A magnetic latch holds the case securely closed when not in use, while also providing a safe place to store Logitech Crayon or Apple Pencil.
- The sealed keyboard is designed to last so students can type on it, toss it into bags, and take it on the go without keys falling off, or dirt and crumbs getting stuck between them.
- An adjustable kickstand with sturdy mechanical hinge allows students to firmly position the device at convenient angles and keep it in place without collapsing.
- Large asset tagging window makes it easy to label and manage multiple devices.
