Built-in Battery

With the battery integrated in the projector, you can project anytime and anywhere.

You do not need a power cable or a nearby socket, and the signal cable is completely eliminated.

Enjoy complete movies or hold various presentations without having to charge the battery or carry any cables.

360° Projection

360 degree projection

The 360° projection offers you highest flexibility and allows you to use the projector in all positions as well as to realize interesting installations. For example, you can project from the deck of the room onto the floor or a table, or mount the projector on its side to project upright.

Acer Smart Format Technology

SmartFormat

Acer SmartFormat technology supports a wide range of input signals, eliminating the need for switching on your notebook/PC, DVD player and receiver. Signals up to 1080p can be received by Acer ColorBoost projectors with HDMI* using Acer SmartFormat technology and can be played back in compressed form.
