PRODUCT DESCRIPTION

The Cling VESA Mount is designed to work with all iPad and Tablet models up to 13" with just one device. It was redesigned to fit a wider range of tablet sizes. The tablet is secured by a bracket clamp and has a VESA mounting base. The 100mm x 100mm VESA mount includes cable management and hidden screw holes. The Cling bracket rotates between portrait and landscape mode and the setup is quick and easy. The Cling can be mounted on a wall or in one of compulocks' various range of stands, as well as on every other stand with a 100mm x 100mm VESA pattern. In addition to the universal Tablet mount, the adjusting tool and mount cover are included in the scope of delivery.
