00176640 Smart Lamp E27, 9W, LED, Matter, Globe, RGBW, Dimmable, with App

Highlightstext:

- Smart light control with the WLAN LED lamp in lightbulb shape: create illumination, effect lighting or special lighting ambiences easily with app or voice control, e.g. choose from 16 million colours, dim or change the colour temperature
- It doesn't matter: with the Matter Smart Home standard, you can connect the WLAN light, regardless of the manufacturer, to any Matter-compatible app, such as Alexa, Apple Home, Google Home or Home Assistant - so you can control smart devices around the home with even more convenience
- Scan and go: see how easy a smart home can be - scan the QR code with a smartphone and the smart lamp is automatically incorporated into the Matter smart home
- Smart colour rush: from 16 million colours, choose exactly the one to suit your mood or the occasions - e.g. vibrant orange to start the day or a riot of colour for a party
- Be it on the sofa or the train: with the Hama Smart Home app, you can control the smart light bulb from anywhere and you have control over your lighting at all times
- Whether it be Amazon Alexa, Google Assistant, Apple Siri or any other: conveniently control all kinds of lighting effects via voice control with the smart lamp using all Matter-compatible voice assistants
- Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products
- Our WLAN light bulb works without any gateway (hub): you don't need an additional device, and you save on extra costs since the WLAN lamp establishes a direct WiFi connection with the router
- Simple installation on your own WiFi network: since no hub is required, your devices can be set up in just a few minutes
- Create various light scenarios with the app: e.g. stepless dimming with a warm white colour temperature for a cosy atmosphere or set daylight for cooking or working
- Colour temperature: 2700K warm white - 6500K daylight
- Timer control: you define in the app when the Smart Home lamp is to switch on and off, for example
- With the devices integrated into your WLAN, groups or scenes can be created, e.g. the smart LED lamp can be linked to a motion detector
- This means that you can save energy with the targeted control of your lighting including – usefully – while out and about, if you have forgotten to switch the light off. That's because you are always kept up to date about the current status via the app or push notification
- Your data is stored exclusively on German servers

System Requirements:
- Operating system: Android 6.0/iOS 16.3 or later

Note for Consumers:
Depending on the matter-compatible system used, an additional hub may be required for operation.
The Hama Smart Home app allows direct setup and use without an additional device.

Technical characteristics:

- Colour Reproduction Index RA (min.): 81
- Light Colour: RGBTW
- Signal Transmission: WiFi
- Beam angle: 320 °
- Colour Consistency: 6
- Colour-tuneable light source: Yes
- Energy Efficiency Class A to G: F
- Energy consumption in on-mode: 9 kWh/1000h
- Flicker for LED and OLED MLS: 0.04

00176640 Smart Lamp E27, 9W, LED, Matter, Globe, RGBW, Dimmable, with App

- L70B50 lifetime for LED and OLED light sources: 15000 h
- Lighting technology used: LED Lamp
- On-mode power (Pon):: 9 W
- Radiated max. transmission power: 0.1 W
- Stroboscopic effect for LED and OLED MLS: 0,056
- Useful luminous flux (360): 806 lm
- Can be Dimmed: Yes
- Colour Temperature: 2700 - 6500 K
- Design / Diameter / Height: Light Bulb / 60 mm / 110 mm
- Dimming: App/Speek
- IP protection class: IP20 (Dry Rooms)
- Lamp socket: E 27
- Power Consumption of an Equivalent Incandescent Lamp: 60 W
- Voice Assistant: Amazon Alexa/Apple HomeKit/Google Home
- Recommended Use: Home Assistent

Delivery:

- 1 smart lamp
- 1 QR setup code for sticking up
- 1 quick reference guide
- 1 safety instructions
