

USB 2.0 Active Extension, 30m

Part No.: 42923

Description

- USB 2.0 High Speed (480Mbps), backwards compatible with USB 1.1 Full Speed (12Mbps) and USB 1.0 Low Speed (1.5Mbps)
- Connectors: USB A Male to USB A Female
- Locking connector feature (when used with compatible cables from the LINDY Extension Cable Pro range only)
- USB bus powered and Plug & Play – no additional drivers required
- 2 year warranty

The LINDY USB 2.0 Active Extension Cable Pro allows you to extend the cable length of your USB device by an additional 30m. It can be used directly as a standalone 30m extension cable or as part of our unique and versatile USB Active Extension Pro System.

When used as part of the USB Extension Pro System, this cable can be directly connected to a computer as the starting piece of a 'daisy chain' in conjunction with the LINDY 8m Active Extension Cable Pro, 12m Active Extension Cable Pro and a 12m Active Extension Cable Pro or 12m 4 Port Hub Pro to create a USB 2.0 connection spanning more than 60m with either 1 or 4 USB 2.0 ports at the remote end.

Package Contents:
