
Product Information

Overview

Unlike traditional, circular earbuds, the design of the EarPods is defined by the geometry of the ear. Which makes them more comfortable for more people than any other earbud-style headphones.

The speakers inside the EarPods have been engineered to maximize sound output and minimize sound loss, which means you get high-quality audio. The EarPods with Lightning Connector also include a built-in remote that lets you adjust the volume, control the playback of music and video, and answer or end calls with a pinch of the cord.

Highlights

Designed by Apple
Deeper, richer bass tones
Greater protection from sweat and water
Control music and video playback
Answer and end calls

What's in the Box

EarPods with Lightning Connector

Tech Specs

General

With Remote and Mic
