

ARTICONA is Bechtle's own brand of IT accessories for the modern workplace and stands for quality and reliability in everyday business.

ARTICONA HDMI KVM Switch 1:4

Article number: 4845094

The ArticonA HDMI KVM Switch offers a variety of features to make your workspace more efficient. Control up to four computers conveniently from a single console. In addition to the two USB ports for mouse and keyboard, there are three additional USB 3.0 ports for other peripherals. The KVM switch also has analog microphone and speaker connections and is housed in a robust metal case. A convenient on/off switch is located on the front of the device. Particularly noteworthy are the intelligent additional features: The switch automatically detects and switches to new devices and skips unconnected sources when switching via button. The auto-scan function also automatically skips unconnected inputs. Note: A power supply with an EU plug is included. An HDMI cable and a USB 3.0 A-B cable are required for each PC. Suitable cables can be found in our accessory range
