	Description
Dimensions	<ul> <li>2.15* × 2.64* × 2.60* (54.6mm × 67mm × 66mm) inclusive of camera foot</li> </ul>
Memory	- 1 GB DRAM, 8 GB eMMC (not user accessible)
Processor	<ul> <li>Neural network processor with 1 TFLOPS of DNN acceleration and 18 cores</li> </ul>
Security	Camera software updatable through Windows Update via Hub
	<ul> <li>Software updates protected by signature security process</li> </ul>
Software	"Automatic framing" (automatically frames people in the field of view)
	<ul> <li>Image optimization (auto exposure, auto white balance, anti-flicker)</li> </ul>
	<ul> <li>Tilt angle-dependent de-warp/distortion correction, for natural faces across</li> </ul>
	the field of view for natural faces across the field of view
	Internal Camera firmware can be updated with new functionality or bug
	fixes through Windows Update
	- Sensor Resolution: 12 MP
Connections	Mounting: Top of Surface Hub 2S 85" and 50" only
	<ul> <li>Mechanical &amp; Electrical Interface to Hub: USB-C break-away magnetic</li> </ul>
	attach to top of bezel
	<ul> <li>Interface to Surface Hub 2S 85" and 50": Customized USB-C</li> </ul>
Camera and video features	Fixed focus lens with 11 glass elements
	- 1 RGB Camera Module
	<ul> <li>Working Distances: 1.0 – 7.4m</li> </ul>
Feature	Description
Feature	Description - HFOV: >136 degrees
Feature	
Feature	HFOV: >136 degrees     Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2
Feature	HFOV: >136 degrees     Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2
Feature	HFOV: 2136 degrees     Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2     Smart Camera adapts its de-warp mesh to remove the distortion of image.
Feature	HFOV: >136 degrees  Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2  Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural  Video Format: 16.9 (NV12 at 360p, 720p, 1080p, 1440p)
Feature	HFOV: >136 degrees  Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural  Video Format: 16.9 (NV12 at 360p, 720p, 1080p, 1440p)  Privacy cover magnetically attaches to front of camera for privacy and
	HFOV: >136 degrees  Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural  Video Format: 16.9 (NV12 at 360p, 720p, 1080p, 1440p)  Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage
Feature	HFOV: 2136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16.9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum
	HFOV: 2 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum
	HFOV: x 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None
	HFOV: x 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None
	HFOV: x 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 169 (NV12 at 360, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None
Exterior	HFOV: x 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None One white LED indicator for camera status (indicator is only visible when on
Exterior  Warranty <sup>®</sup>	HFOV: x 136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None One white LED indicator for camera status (indicator is only visible when on 1-year limited hardware warranty (All Countries)
Exterior  Warranty <sup>®</sup>	HFOV: 2136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of limage according to the camera tilt angle, so the image always looks natural Video Format: 16.9 (NVI) 2 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None One white LED indicator for camera status (indicator is only visible when on 1-year limited hardware warranty (All Countries) Microsoft Surface Hub 2 Smart Camera with privacy cover
Exterior Warranty <sup>8</sup>	HFOV: 2136 degrees Tilt range: +20deg and -20deg from horizontal. Microsoft Surface Hub 2 Smart Camera adapts its de-warp mesh to remove the distortion of image according to the camera tilt angle, so the image always looks natural Video Format: 16:9 (NV12 at 360p, 720p, 1080p, 1440p) Privacy cover magnetically attaches to front of camera for privacy and magnetically attaches to back of camera for convenient storage  Casing: Anodized Aluminum Color: Platinum Physical buttons: None One white LED indicator for camera status (indicator is only visible when on 1-year limited hardware warranty (All Countries)  Microsoft Surface Hub 2 Smart Camera with privacy cover Quick Start Guide
