

Build an adaptable enterprise with Asana

Today's enterprises succeed by adapting to tomorrow's challenges. But coordinating work across teams becomes more complex—and chaotic—as your organization grows. Without clarity on how their work contributes to company-wide goals, teams spend too much time on work about work and struggle to keep up with the pace of changing customer needs.

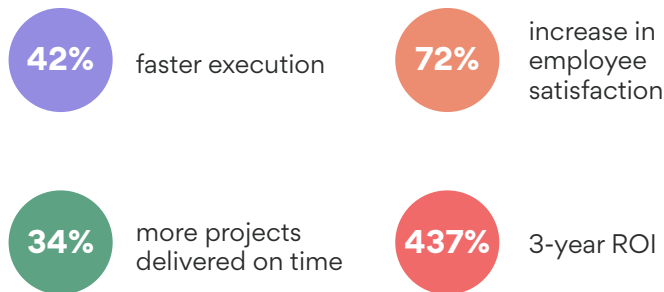

Asana Enterprise is the secure and flexible work management solution designed for global organizations. With Asana, your teams can tackle any business challenge with confidence and clarity. All in one platform.

According to the **2022 Anatomy of Work Index**:
