

Power Strip

00176574 WLAN Socket Strip, 4-way, Individually Switchable, Overload Protection, 4-p

Highlightstext:

- With the WLAN socket strip, intelligently control four electrical consumers in one location or separately from each other, e.g. home cinema and living room lighting, and also charge USB devices at four USB ports or supply them with power
- Our WLAN socket strip works without any gateway (hub): you don't need an additional device, and you save on extra costs since the socket strip establishes a direct WiFi connection with the router
- The right control for every device: each individual socket on the smart socket strip can be individually controlled and programmed via the app
- Intelligent socket strip with a USB upgrade: directly charge smartphones, tablets and other devices or provide USB devices such as Fire TV with power at the USB slots
- Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products
- Whether it be the sofa or the sun lounger: with the Hama Smart Home app, you can control your WiFi socket strip from anywhere and you have control over all the devices connected to it at all times
- Whether it be Amazon Alexa or Google Assistant: conveniently control the devices that are connected to the Smart Home socket strip with spoken commands
- Easy installation into your WiFi network: no hub needed, your devices are set up in minutes
- High compatibility: works with Amazon Alexa, Google Assistant, Siri Shortcuts, Home Connect Plus, iOS and Android. Can also be connected to all Alexa and Google Assistant-compatible smart home products from other manufacturers
- Perfect start: the WLAN multi-way socket strip is ideal for intelligently upgrading an apartment or house, but also for supporting people with physical disabilities
- Switch devices on or off at specific times or create groups or scenes with your devices integrated into the WLAN
- Ideal for home entertainment equipment: e.g. switch the TV and the Fire TV device on together, but leave the Blu-Ray player and games console switched off
- This means that you can save energy with the targeted control of electrical consumers, including - usefully - while out and about, if you have forgotten to switch the light off. That's because you are always kept up to date about the current status of the equipment via the app or push notification
- Overload protection: if devices are connected whose total current exceeds 10 A, the smart socket strip automatically switches itself off to protect your devices
- 4 USB charging ports: each 5 V / 2.1 A / 10.5 W, max. USB current 4.2 A, USB block switchable
- With increased protection against accidental contact
- Your data is stored exclusively on German servers

System Requirements:

- Operating system: Android 4.4/iOS 8.0 or later

Note for Consumers:

Amazon Alexa:

the required Alexa skill "Hama Smart Home" must be activated in the Alexa app. The user account for the Hama Smart Home app is then connected to Alexa. This allows the devices to be controlled via voice control (switching on/off)

Google Assistant:

the "Hama Smart Home" service must be activated in the Google Home app for this. The user account for the Hama Smart Home app is then connected to Google.

This allows the devices to be controlled via voice control (switching on/off).

Technical characteristics:

Power Strip

00176574 WLAN Socket Strip, 4-way, Individually Switchable, Overload Protection, 4-p

- Colour: White
- Product Division: Home & Living
- Shade of colour: White
- Connection: Socket with Earth Contact
- Number of USB Ports: 4
- Type of Cable: H05VV-F
- Additional Functions: Overload Protection
- Function: WIFI Access
- Number of Radio Sockets: 4
- Voice Assistant: Amazon Alexa (AVS)/Apple Siri (Shortcuts)/Google Home
- Cable Length: 1.7 m
- Width x Depth x Height: 35 x 7 x 4.3 cm
- Recommended Use: Home Assistent

Delivery:

- 1 WLAN socket strip
- 1 quick reference guide
