00139994 "C-650 Face Tracking" PC Webcam, 1080p, USB-C, for Video Chat / Conferences

### Highlightstext:

- Ideal for online meetings or chats with active movements on various instant messaging applications and streaming software / pages (e.g. Skype, Teams, Zoom, YouTube)
- The AI face tracking mechanism is able to recognise the face of the main user, track it within a range of 355° horizontally in the room and dynamically adjust the visual field to movements in real time
- Magnetic lens cover protects against spy attacks by hackers
- Integrated microphone with noise cancellation for clearly understandable speech transmission allows voice over IP, e.g. Skype, Teams, Zoom, YouTube
- A firm footing on location: thanks to the 1/4" thread, can be mounted onto all common tripods
- Full HD wide image resolution 1080p
- Auto-focus guarantees a sharp image, even with movement
- Fast and reliable connection via USB-C adapter cable
- Plug & Play: driver-free installation thanks to UVC

### System Requirements:
