

WHAT'S NEW / FALL 2020

BlueJeans Meetings

As virtual meetings continue to be one of the primary vehicles for communication and collaboration, BlueJeans is excited to provide a snapshot of recently released features that will boost meeting productivity and improve meeting security.

SEE MORE, DO MORE

Enhanced Gallery View*

Experience a more robust attendee experience with an expanded gallery view that supports up to 25 meeting attendees on the screen at once.

Expanded Mobile Layouts*

View up to 9 meeting attendees in mobile gallery view on both iOS and Android. Larger screen layouts create a more immersive experience on-the-go.

*Requires Sequin upgrade

STAY CONNECTED (FROM HOME)

Virtual Backgrounds

Transport your meeting to wherever you feel like by uploading a custom virtual background. You can also blur your background to eliminate distractions.

Raise Hand

Improve virtual collaboration by having meeting attendees use a non-verbal cue to signal who has a question or when the discussion needs to be paused.

Smart Meetings

Capture the best parts from every meeting and share highlight reels with colleagues to ensure no one is left behind, regardless if they attended or not.

Chat Enhancements

Improve conversations in the chat window with a richer set of emojis. Attendees can also download the chat before a meeting ends to preserve their conversations.

Updated Slack Integration

Use the new Shortcuts feature in Slack to schedule an upcoming BlueJeans Meeting. Automatically send Meeting Highlights to a private Slack channel.

Floating View

Pop out the meeting participant window to sit on top of your desktop without having to keep the BlueJeans app open to improve multi-tasking.

BLUEJEANS MEETINGS

What's New / Fall 2020

SECURITY YOU CAN TRUST

. 🗧	PEOPLE	
	r can screen share ?	
- Hevent screen		

Lock Screen Share

Activate in-meeting controls to mitigate unwanted content sharing by limiting who can share their screen and when they can share their screen.

Restricted Meetings

Prevent unwanted guests from attending All video, audio, and content in transit is your meetings by ensuring that only invited attendees have the appropriate credentials to join.

Quick Lock

When back-to-back meetings pile up, enable quick lock to hold the next meeting's participants in the waiting room until you initiate the next meeting.

256-AES Bit Encryption

now encrypted by the BlueJeans app and browser using AES-256 GCM encryption to deliver improved security and faster performance.
