ARTICONA GRS 40.6 cm (16") Backpack

Article number: 4570983

High quality, compact, and lightweight backpack that impresses with its functionality and modern, subtle design. The main material is recycled.

Its stable shape with reinforced underside as well as the ergonomic design of the handle, padding and shoulder straps enable practical use and easy handling with a high level of comfort. Thanks to its well thought-out, space-saving, and wide-opening compartment design, the backpack allows for a notebook (up to 40.6 cm/16"), tablet, printer, a file folder and various accessories to be stowed away in an orderly manner so that they are always ready at hand.

If the outer material gets a little dirty due to external influences, it can be easily cleaned by wiping it with a damp cloth. The water-repellent outer material effectively protects against water, so that the backpack is a reliable companion in everyday life even when it rains.
