

# LX Pro

Built to Adapt. Guaranteed to Last.

ergotron®  
*moving you forward*

# Introducing the LX Pro, your choice for modularity and value

LX Pro, an evolution of the industry-leading LX design, is crafted for longevity to maximize ergonomics and streamline installation. A robust design to enhance the way you work, improve productivity and wellbeing.

Available in various configurations

10.000-Cycles Tested

10 Years Warranty

Sustainable Packaging

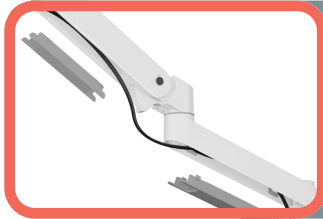

Constant Force

ADJUST WITH A TOUCH

Constant Force motion technology  
Delivers the smoothest, finger touch  
adjustment and movement.

# Experience the Upgrade

## ✓ Better cable management

An added cover safely routes cords, reducing cable clutter for a sleek look while preventing snags when an arm's in motion.

## ✓ Integrated rotation-stop

Engage a built-in stop that limits the extension's side-to-side motion to help prevent damage to adjacent walls or partitions.

## ✓ Versatile design

Modular construction makes it easy to adapt with accessory add-ons and conversion kits as technology shifts and requirements change.

## ✓ Simple Installation

Fewer parts and a detachable head make setup quick and easy.

## ✓ Smart tension indicator

Set tension level once and repeat for quick install of multiple workstations.
