Trackball

1.3" Large
Trackball

Adjustable
DPI Switch

■ 2.4 GHz RF Wireless Technology with On/Off Switch

This Mouse works up to 30 feet away without the tangling wires. The On/Off switch conserves battery power and the low battery indicator reminds users when it is time to change the batteries.

■ Ergonomic Design

The iMouse T30 ergonomic design provides a comfortable grip and eliminates hand strain, while giving great cursor control.

■ Detachable Trackball

The detachable trackball can be removed by pushing the trackball outwards from the back of the device for easy cleaning and occasional maintenance.

■ Large Trackball

The 1.3" large size trackball makes it easier to control the cursor with minimal hand movement, providing a perfect combination of long-lasting comfort and precision.

■ 5 Level DPI Switch(400-4800 DPI)

The adjustable DPI switch provides control of the trackball with 5 different customized sensitivities (5 default speed at 400/800/1200/1600/2400/3200 DPI). Located conveniently just below the scroll wheel, the DPI adjustment buttons let you quickly adjust cursor speed between the various computer tasks throughout your day.
