Other	<ul style="list-style-type: none"> • MIL-STD 810H (1.8 m drop protection) • IP68 (1.5 m depth for up to 30 minutes)
Battery	<ul style="list-style-type: none"> • 4630 mAh² (not removable)
In the box	<ul style="list-style-type: none"> • Nokia XR20, 1m USB Type C, Quickstart Guide, Safety brochure, Protective Foil

Granite
64 GB ROM 4 GB RAM

Ultrablue
64 GB ROM 4 GB RAM

A powerful experience for entry-level smartphones. It's the best of Android, with new and revamped apps - and no bloatware.

¹ Pre-installed system software and apps consume a significant amount of memory.

² The battery has a limited number of charge cycles, so battery life will decrease over time. Sooner or later, the battery may need to be replaced.

³ Based on a test conducted by HMD Global Oy. MIL-STD-810H certified up to 1.5 m drop protection and 1.5 m water protection for up to 30 minutes.
