# ARTICONA HDMI Extender, RJ45, 70 m

Article number: 4844739

This HDMI extender transmits the HDMI signal over a single RJ-45 cable with a range of up to 70 meters. The extenders consist of a transmitter and a receiver. The transmitter connects the source and also outputs the signal to a local display. The receiver receives the signal over an RJ-45 cable at a distance of up to 70 meters. The maximum resolution is 4K at 60 Hz with a data transfer rate of up to 18 Gbit/s. The transmitter and receiver are housed in compact metal enclosures. The power supply is located on the transmitter side and is screwable. We recommend using high-quality Cat-6 or Cat-7 cables.

## Highlights:

- Cost-effective HDMI extender with just one RJ-45 cable
- Maximum range of up to 70 meters at 4K60 Hz
- Compact metal housing for robust protection
- 12V power supply on the transmitter side with screw connection
- No software installation required
- HDMI data transfer rate of up to 18 Gbps
- Infrared transmission for remote controls

## Specifications:

Product type	Extender via Catx (RJ45)
Connectors	1x HDMI
User console port	No input device
Weight	TX 150g, RX 146g
