Featuring

No key undetected

10-key rollover anti-ghosting ensures that no matter how fast and furious you make your next move, your key presses are detected.

Control tracks and volume

Adjust the volume or skip to your favorite track without exiting. With media control Fn keys, you have the power to switch it up while in-game.

Interruption-free gaming

Game interruptions are detrimental to your success. Prevent them by activating the gaming mode function key, so all background processes stay where they belong—out of your game.

Customize your comfort

Compete in comfort with 2-way adjustable legs that allow your wrist to sit in a relaxed, natural position.
