Base/plinth trim panels, vented for base/plinth system VX – VX 8620.091

created: 22.06.2021 on www.rittal.com/com-en

Product description

Description: For venting the enclosure via the base/plinth. Specifically in applications such as power distribution where the enclosure gland plates are not used, this can be used to achieve a higher air throughput inside the enclosure. Various solutions to raise the roof and special roof plates with vent openings are also available for enclosure venting. With a 200 mm base/plinth height, one or two vented trim panels may optionally be used. Thanks to the complete symmetry of the base/plinth system VX, the trim panels may either be fitted at the front, rear or side on the base/plinth corner piece.

Material: Sheet steel

Colour: RAL 9005

Supply includes: Assembly parts

Note: Various solutions to raise the roof and special roof plates with vent openings are also available for enclosure venting

Product description

To fit: Width/depth: 800 mm

Dimensions: Height: 100 mm

Packs of: 2 pc(s).

Weight/pack: 1.95 kg

Copper weight (kg) 0
