## Key features

**Flat IPS panel:** Preserve color vividness and clarity of multimedia content across every inch of the screen through 178° of wide viewing angle.

**AMD FreeSync™:** Responsive video experience without screen tearing. FreeSync keeps the monitor and graphics card refresh rate in sync to reduce image tear and stutter. Videos can be enjoyed without any interruptions as even fast movement scenes look seamless and smooth.

**75Hz Refresh rate:** The rapid 75Hz screen refresh rate minimizes image lag and motion blur for a smoother display.

**Eco Saving Plus<sup>1</sup>:** Eco Saving Plus technology can reduce up to 10% of power consumption when compared with the maximum brightness level by adjusting the brightness of the screen's black sections automatically.

**Borderless monitors:** Minimal bezel brings maximum concentration. The virtually borderless screen shows a full picture and looks almost gapless when used in a dual-monitor setup. See more at once with fewer distractions.

## The perfect pose

## 3 year warranty

### What's in the box?

HDMI Cable  
Power Cable

Accessories may differ by country.

## Connectivity

- 1 DisplayPort IN
- 2 HDMI IN
- 3 USB 2.0 for Service Only

## **Samsung Electronics Co. Ltd.**

Samsung Electronics Co., Ltd. inspires the world and shapes the future with transformative ideas and technologies. The company is redefining the worlds of TVs, smartphones, wearable devices, tablets, cameras, digital appliances, medical equipment, network systems, and semiconductor and LED solutions. For the latest news, please visit the Samsung Newsroom at [news.samsung.com](https://news.samsung.com).

Find out more at:

[displaysolutions.samsung.com](https://displaysolutions.samsung.com)

<https://displaysolutions.samsung.com/monitor/detail/1775/F24T37>

All tests and measurements were conducted by Samsung internally.

<sup>1</sup>Based on internal testing data of S80PB, S80TB and T45F monitors only. Testing compared energy usage of these models with Eco Saving Plus mode switched on high setting and switched off. Actual energy savings may vary based on usage conditions, brightness levels, and model selected. Eco Saving Plus is not available in Dynamic Contrast Mode, Game Mode, Eye Saver Mode, or when PIP/PBP Mode is on.
