

# G DATA ANTIVIRUS BUSINESS

## VIRUS-FREE CLIENTS – FOR TROUBLE-FREE, PRODUCTIVE WORKING

G DATA ANTIVIRUS protects your company network with multiple award-winning antivirus technology, central control and automatic protection for all servers, workstations, notebooks and mobile iOS and Android devices.

The new AntiSpam function in the Exchange plug-in, support for additional Linux distributions and protection against malicious USB devices by the integrated USB KEYBOARD GUARD now offer even more security for your company.

G DATA has been carrying out research for your security for 30 years. The result is exceptional, comprehensive protection for your PC, which is easy to install, simple to operate and offers excellent performance levels.

G DATA | SIMPLY SECURE

The image displays two overlapping screenshots of the G DATA MasterAdmin software interface. The top screenshot shows the 'G Data Security Status' dashboard with a pie chart indicating the distribution of client connection durations: green for <= 24 hours, yellow for <= 3 days, and red for >= 7 days. Below this, a bar chart shows the 'Top 10 clients - Neutralized infections (4/8/2015-4/29/2015)'. The bottom screenshot shows a detailed view of the 'Security status' for 49 clients, with a table listing client names, security status, and engine versions.

Client	Security status	Engine A	Engine B	Status
WORKSTATION16	No connection to server	AVA 25.1101 (15.04.2015)	GD 25.4949 (14.04.2015)	4/15/20
WORKSTATION19	No connection to server	AVA 25.1101 (15.04.2015)	GD 25.4949 (14.04.2015)	4/15/20
WORKSTATION22	No connection to server	AVA 25.1101 (15.04.2015)	GD 25.4949 (14.04.2015)	4/15/20
WORKSTATION45	No connection to server	AVA 25.1320 (29.04.2015)	GD 25.5022 (29.04.2015)	4/28/20
Security status: Protected (49)

## COMPREHENSIVE CLIENT PROTECTION

<b>CloseGap hybrid technology</b>	Maximum protection through proactive, signature-based detection
<b>G DATA BankGuard</b>	Secure online payments – no browser add-on or additional software required
<b>Behavior Blocker</b>	Protects against even unknown viruses
<b>NEW! Protection against harmful USB devices</b>	The integrated USB KEYBOARD GUARD reliably protects clients against harmful USB devices masquerading as keyboards
<b>OPTIMIZED! Antivirus for Linux clients</b>	Protects Linux computers in the company network against Internet risks. Now with support for even more distributions

## CENTRAL ADMINISTRATION

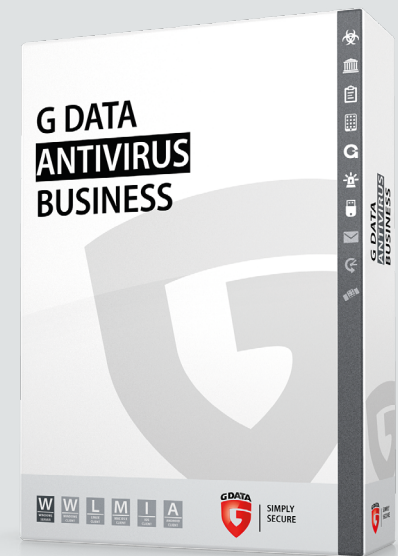

<b>Simple administration and fast overview</b>	Central management of installations, virus scans and user permissions
<b>Simplified installation overview</b>	With status reports and installation history
<b>Clear dashboard</b>	User-friendly overview of all relevant information, including context-based help
<b>Remote administration</b>	From anywhere via web interface – even from mobile browsers
<b>Active Directory integration</b>	Transfer existing group structures and automate client installation
<b>OPTIMIZED! Mobile Device Management</b>	Central administration of mobile Android and iOS devices, with antitheft protection, app checking, corporate phone book, call filter and much more (features can differ depending on the system)
<b>Software and hardware directory</b>	Detailed display of the entire inventory
<b>Support free of charge 24/7/365</b>	Development and in-house support work closely together in our Bochum head office
<b>Premium service and support</b>	Guaranteed response times and highly specialized support contacts – offer available on request

## OPTIONAL MODULES

<b>OPTIMIZED! MailSecurity</b>	Gateway solution with antivirus and antispam filter (SMTP/POP3) compatible with any mail server, including Exchange, Notes, etc. Includes plug-in for MS Exchange 2007 to 2013
<b>Central client backups</b>	Central client backups for all company PCs
<b>Patch Management</b>	Centrally controlled software updates for all clients in the network

## ADD-ON PRODUCTS

<b>ANTIVIRUS FOR MAC</b>	For seamless network protection: extensive protection against viruses, Trojans and other malware, specifically for MAC OS clients
--------------------------	---

### System requirements
