

Radio Socket

00176624 "Outdoor" WLAN Socket, without Hub, Voice and App Control, 2,300W/10A, gr

Highlightstext:

- With the WLAN socket, outdoor electrical consumers such as outdoor lighting, light chains and garden pumps can be actuated easily via app or voice control, e.g. switched on and off at certain times
- Our WLAN socket works without any gateway (hub): you don't need an additional device, and you save on extra costs since the socket establishes a direct WiFi connection to the router
- A downpour or a shower from a lawn sprinkler: the outdoor socket with rubber cover is perfectly suited to outdoor use thanks to its splash protection (IP 44)
- Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products
- Whether it be the sofa or the sun lounger: with the Hama Smart Home app, you can control your WiFi socket from anywhere and you have control over all the devices connected to it at all times
- Whether it be Amazon Alexa or Google Assistant: conveniently control the devices that are connected to the Smart Home sockets via spoken commands
- Simple installation on your own WiFi network: since no hub is required, your devices can be set up in just a few minutes- High compatibility: works with Amazon Alexa, Google Assistant, Siri Shortcuts, Home Connect Plus, iOS and Android. Can also be connected to all Alexa and Google Assistant-compatible smart home products from other manufacturers- The perfect start: the smart socket is ideal for intelligently upgrading a garden or balcony, but also for supporting people with physical disabilities- Light chain, pond pump, garden lighting or garden sprinklers can be switched on and off at set times without any effort, but also create groups or scenes using the devices integrated into your WLAN- This means that you can save energy with the targeted control of electrical consumers, including - usefully - while out and about, if you have forgotten to the garden equipment off. That's because you are always kept up to date about the current status of the equipment via the app or push notification- With increased protection against accidental contact- Your data is stored exclusively on German servers

System Requirements:

- Operating system: Android 4.4 or later, iOS 8.0 or later

Note for Consumers:

Only connect IPX4-protected mains plugs to the garden socket in order to ensure the degree of protection.

Amazon Alexa:the required Alexa skill "Hama Smart Home" must be activated in the Alexa app. The user account for the Hama Smart Home app is then connected to Alexa. This allows the devices to be controlled via voice control (switching on/off).

Google Assistant:the "Hama Smart Home" service must be activated in the Google Home app for this. The user account for the Hama Smart Home app is then connected to Google. This allows the devices to be controlled via voice control (switching on/off).

Technical characteristics:

- Colour: Grey
- Product Division: Home & Living
- Power connector plug type: Type E (CEE 7/5)
- Signal Transmission: WiFi
- Compatible operating systems: Android 4.4/Apple iOS 8.0
- Frequency: 2.4 GHz
- Switching Capacity: 2300 W
- Additional Functions: With increased Contact Protection
- Can be Dimmed: No
- IP protection class: IP44 (Protection against Splash Water)

Radio Socket

00176624 "Outdoor" WLAN Socket, without Hub, Voice and App Control, 2,300W/10A, gr

- Maximum Load: 2300 W
- Voice Assistant: Amazon Alexa (AVS)/Apple Siri/Google Assistant
- Standby Consumption : 0.5 W
- App Control: Hama Smart Home
- Licensed from / by: Amazon
- Recommended Use: Home Assistant

Delivery:

- 1 "Outdoor" WLAN socket- 1 quick reference guide
