

HP No. 81 Ink Supplies

The HP No. 81 Dye Ink Supplies System consists of an HP No. 81 Dye Ink Cartridge, a HP Dye Printhead and HP Printhead Cleaner, and makes use of HP Jetexpress Technology to deliver fast, unattended printing without compromising image quality.

HP No. 81 Ink Cartridges and Printheads

Designed for professional print service providers (bureaus, photo labs, repro houses, sign shops, screen printers and more), quick printers, copy shops and in-house graphic professionals (agencies, design studios and corporate design departments).

Ultimate photo quality – including the widest colour gamut and smoothest colour transitions on HP Large Format Printers, and print resolutions up to 1200 dpi – with a complete modular ink system, including six specially formulated based colours.

Get fast, no-compromise inkjet printing with high-capacity HP No. 81 Ink Cartridges, nearly one-inch-wide printheads and HP Jetexpress Technology –

allowing unattended printing and unrivalled print speeds, without compromising image quality.

Ensures a low cost per page, because printheads are separate and have to be less frequently replaced than cartridges. Embedded HP Smart Technology constantly monitors and maximises performance, providing user alerts when printheads need to be replaced.

HP No. 81 Ink Supplies, HP Designjet 5000/5500 Printers and HP Printing Materials are engineered and tested together to ensure uncompromising print quality, performance and reliability, for images that are always clear and sharp.

HP No. 81 Value Packs

Designed for professional print service providers (bureaus, photo labs, repro houses, sign shops, screen printers and more), quick printers, copy shops and in-house graphic professionals (agencies, design studios and corporate design departments).

The HP No. 81 Dye Value Packs provide production-printing customers with added cost savings and convenience – conveniently packaging an ink cartridge, printhead and printhead cleaner into one easy-to-purchase box.

The HP No. 81 Dye-Based Inks contained in HP Value Packs are formulated to deliver the most brilliant, photo-realistic images and vivid, full-colour graphics.

HP Jetexpress Technology results in fast, unattended printing without compromising image quality. The value pack bundle provides these system components at an attractive price that is lower than purchasing them all separately.

HP No. 81 3-Ink Cartridge Multipacks

Ideal for professional print service providers, copy shops, graphics professionals and more working with HP Designjet 5000/5500 Inkjet Printing Systems and seeking high-volume, large format supplies for applications such as retail.

Enhanced productivity due to significant cost savings compared to buying individual ink cartridges – enabling users to order more ink at one time, at a lower cost, and stock more ink supplies.

Just one of a variety of product offerings from which HP Designjet 5000/5500 users can choose to meet their individual printing needs.
