

Active holder with cig-plug

With tilt swivel. 3A charging. 12/24V. With Easy-switching system. Charging via pogo pins.

Item no: 712321

EAN Number: 7320287123210

The active holder charges your battery when it is in the holder. The charging device connects to the unit automatically when you put the unit in the holder. The holder is attached onto a tilt swivel and can be adjusted in order to avoid light reflection. Connects to the vehicle's cigarette lighter socket, 12/24 Volt. Attach onto a ProClip Mounting Platform.

Easy-switching system:

The easy-switching system enables you to upgrade the holder only, and keep the installed cables. It saves you a lot of time! When upgrading to a new device, you do not longer need to make a full installation. Same goes for maintenance in case of warranty or damage. You simply disconnect the holder from the charging cable via the Molex 6-pin quick connector, and then connect the new holder. The switch is done in a few seconds.

The holder is equipped with a tilt swivel so you can easily adjust the angle for better viewing, or switch between portrait and landscape mode. Tilts 17° and swivels 360°. Mounting plate 42x50 mm with 4 mm AMPS-holes. Made of high grade black ABS/Acetal plastic. Made in Sweden. Attach onto a Pedestal Mount or an ProClip mounting platform.

Fits the following models:

Honeywell CT45
Honeywell CT45 XP

For a complete list, see

Measurements:

Height 110 mm
Width 82 mm
Depth 65 mm
Volume 586 cm³
Weight 203 g

Charging specifications:

Input voltage: DC/10-24V
Charging voltage: DC/4.6-5.3V
Output current(Typ): 3.0A
Input & output protection: Input polarity reversal/Output over voltage/Output over current/Output short protection
LED charging indicator: Product output indicator
Operating temperature: 0°C ~ +40°C
Storage temperature: -20°C ~ +80°C
RoHS compliant: ROHS
