CadMouse Compact Wireless

Product	CadMouse Compact Wireless
Document	Product Copy Master Document (PCMD)
Category	Mouse
Language	EN

Part-Nr.	3DX-700118
EAN	4260016341474
UPC	821123701182

Product Name with Tag Line

CadMouse Compact Wireless – Designed for the Mobile CAD Specialist

Product Copy – Short

The 3Dconnexion CadMouse Compact Wireless is developed for top-level wireless performance in a conveniently compact body. Lightweight and agile, it is especially suited for design and engineering professionals who prefer to use a compact form factor and want devices that are particularly suitable for mobile workstyles. Featuring advanced ergonomics, superior comfort and a redesigned mouse wheel, the wireless mouse guarantees ideal sensitivity, reactivity, and precise control which provide a seamless professional experience.

With up to two months of use without charging*, triple connectivity and a tailor-made carry case, CadMouse Compact Wireless is for users desiring reliable wireless technology and ergonomics in their on-the-go working experience.

*Battery life based on 8 hours per day, 5 days per week.

Product Copy – Mid-Length

With 3Dconnexion’s commitment to comfortable and healthy usability, the wireless mouse enjoys compact ergonomic design, combining sleek aesthetics, efficiency, and precise calibration. Benefiting from the CadMouse family’s ergonomic and technological refinements, CadMouse Compact Wireless promises top-level wireless performance in a conveniently compact body. Lightweight and agile, it enjoys a meticulously redesigned mouse wheel, which features new intuitive and predictive capabilities, maximal durability, and a high-precision mobile-optimized optical sensor.

With up to two months of use without charging*, triple connectivity and a tailored carry case, CadMouse Compact Wireless is for design and engineering users wanting reliable wireless technology and ergonomics in their on-the-go working experience.

CadMouse Compact Wireless comes with a dedicated middle mouse button and demonstrates Smart Mouse Wheel 2 breakthrough redesign as well as its upgraded Smart Scroll capability, which include various modes as well as zooming functions that are exclusively created for design and engineering professionals in mind.

Application commands are accessed via a one-click Top Button, opening an application-specific radial menu, fully customizable using 3Dconnexion’s powerful yet simple 3DxWare driver software.

*Battery life based on 8 hours per day, 5 days per week.

CadMouse Compact Wireless – Designed for the Mobile CAD Specialist

Demonstrating 3Dconnexion’s refined precision technology in a compact body, CadMouse Compact Wireless is ideal for professionals who want devices that are particularly suitable for mobile workstyles. It is developed for top-level wireless performance in a compact formfactor, with advanced ergonomics to offer ever more comfortable and precise use anywhere they work. With 3Dconnexion’s commitment to ensuring comfortable and healthy usability, CadMouse Compact Wireless enjoys the innovative ergonomics that define the CadMouse line.

Compact Ergonomic Design

Modern engineering and mobile workplaces demand powerful yet portable equipment. With CadMouse Compact Wireless you get specific features for design and engineering, like a dedicated middle mouse button for application functions, ergonomic comfort with a convenient thumb rest and concave button shape for tactile control and a redesigned Smart Mouse Wheel 2. Created with a range of intelligent features that allow for adaptive scrolling and a more refined control of movement, the CadMouse line provides fluid navigation and easy access to applications, thus providing a seamless experience with exceptional precision.

High-Caliber Performance and Durability

The high-precision, energy-saving optical sensor ensures CadMouse Compact Wireless will respond exactly as intended, with up to two months of high-quality daily use before requiring a recharge*.

*Battery life based on 8 hours per day, 5 days per week.

The Freedom of Triple Connectivity

Three ways to connect, and three simple ways to switch between them. Utilize the reliable wireless technology of 3Dconnexion's Universal Receiver, Bluetooth or cable while charging.

Fluid Navigation and Adaptable control

The CadMouse family is renowned for its exclusive Smart Mouse Wheel 2 along with its Smart Scroll capability. It offers several advanced scrolling modes based on activity, which alter scroll behavior to adapt to the software and when necessary, to apply more precise control.

Easy Access to Application Commands, and a Powerful Driver

The Top Button opens an application or environment-specific radial menu, providing quick access to the user's favorite application commands. Those commands are simply activated with a mouse gesture or click.

3DxWare 10 is the single driver foundation that offers simple customization of application commands. The simple but powerful interface makes it easy to individualize the CadMouse Compact Wireless experience.

High-Caliber Precision

CadMouse Compact Wireless has optimally-shaped, wear-resistant PTFE feet to provide ideal equilibrium between static and kinetic friction, leading to a constant reaction force. Combined with a CadMouse Pad, professionals will get the most traction, smoothness, and precision with their CadMouse Compact Wireless.

Tailored Carry Case Included

With a mobile workplace, CAD users need protection for their mobile device. 3Dconnexion includes a compact, lightweight carry case with a durable surface for CadMouse Compact Wireless.

Features and Functions

- 7 buttons (including dedicated middle mouse button, 5 programmable buttons)
- High resolution, energy saving optical sensor
- Compact ergonomic design
- Triple connectivity: wireless with Universal Receiver, Bluetooth or cabled
- Rechargeable battery lasting up to two months between charges
- Specially developed PTFE feet
- Customizable radial menu
- Smart Mouse Wheel 2
- QuickZoom
- Lightweight and durable carry case

Supported Operating Systems

Microsoft Windows, macOS

Technical Specifications

- Optical sensor with 7200 DPI
- Rechargeable lithium polymer battery with 1100 mAh
- 3Dconnexion® 2.4GHz wireless technology
- Bluetooth® Low Energy
- Adaptive polling rates with 90Hz (Bluetooth), 125Hz (Universal Receiver) and 1000Hz (cabled)
- Dimensions (LxWxH): 110 x 67 x 38 mm / 4.3 x 2.7 x 1.5 in
- Weight: 110 g / 3.88 oz / 0.24 lbs

Package Contents

- CadMouse Compact Wireless
- Carry case
- 3Dconnexion Universal Receiver
- Braided USB-C cable 1.5 m

Certifications and Registrations

CE, UKCA, EAC, FCC, IC, MIC, KC, RCM, BSMI, NCC, WEEE, RoHS-EU, RoHS-CN

Warranty

3-year limited hardware warranty
