

Digital Radio

00054242 "DR7USB" Digital Radio, FM/DAB/DAB+/Battery Operation

Highlightstext:

- Digital radio for receiving analogue and digital radio stations via FM/DAB/DAB+
 - Listening pleasure with state-of-the-art technology: hiss-free and digital with DAB/DAB+, but also with conventional FM reception
 - Enjoy DAB+ even while out and about: handy, battery-powered radio for life on the move and mains operation for at home
 - The two direct selection buttons allow you to store your favourite stations and find them without searching
 - For everyone who wants to simply listen to DAB+ without any fuss: with control dial for intuitive operation
 - Start the day with your favourite station and two alarm memory slots: it can be set for both wake-up times whether the alarm is to sound only once, daily, on work days or at the weekend
 - 2 possibilities for the power supply: Battery operation or mains operation with a suitable USB power supply unit through the integrated micro-USB connection
- FM/DAB/DAB+
- Noise-free listening pleasure with an extensive array of DAB+ stations
 - Multiple stations can be received nationwide along with a range of regional radio stations in digital quality
 - 30 local favourites memory slots each for FM and DAB/DAB+

- Mono speaker 0.5W (rms)
- Fixed telescopic antenna
- Time synchronisation via the analogue or digital radio network
- Battery operation up to 20 hours)

Miscellaneous:

- Sleep timer

Note for Consumers:

DAB/DAB+

The DAB/DAB+ provision is being expanded in numerous countries. Find out more about the current roll-out situation on the Internet or in a specialist retail store. A general overview of the global network expansion can be found at www.worlddab.org. To improve reception of FM or DAB/DAB+, position the device near a window.

Battery runtime

The battery runtime depends on numerous factors such as the brightness of the display and the volume set, as well as the batteries used.

USB operation

The product requires a USB power supply unit with a power output of at least 2.5W (min. 5V/0.5A).

A detailed manual can be found at www.hama.com/054242
