

# ThinkCentre M70c

Lenovo can help you overcome two of the most common obstacles in the modern workplace—shrinking spaces and shrinking budgets—with even smaller form factor desktop solutions that provide a better computing experience for employees at all levels. As the smallest small form factor PC in the ThinkCentre lineup, the ThinkCentre M70c is an excellent choice for government, education, and other large enterprises that need to affordably equip workforces ranging up to the tens of thousands. It fits easily into space-starved offices where desk real estate is at a premium and at a price point that allows you to allocate more budget for critical projects.

With up to 10th generation Intel® Core™ i9 processors, ThinkCentre M70c provides powerful performance that enables users to quickly and efficiently manage daily tasks, like email, word processing, building spread sheets, and more. Users can connect to up to two displays for improved productivity and can work without worry knowing these desktops are protected by comprehensive ThinkShield security solutions. When it comes to technology that provides a smarter way forward, big solutions for big workforces really do come in smaller packages.

technology  
for all

Lenovo

# ThinkCentre M70c

## INTELLIGENT PERFORMANCE

Don't let its compact size fool you. At just 7.4L, ThinkCentre M70c is capable of very big things. This powerful desktop boasts up to 10<sup>th</sup> generation Intel® Core™ i9 processors and up to two DDR4 UDIMM with up to 32GB memory support. Thanks to its ICE (Intelligent Cooling Engine) 4.0, users can choose between extreme performance for more demanding tasks and a quieter, better experience for day-to-day office work.

## PRODUCTIVITY BOOSTER

ThinkCentre M70c helps improve productivity and ergonomic experience with the ability to connect to two displays at once. A USB-C port is located on the front panel for quick and convenient data sharing and charging. Connectivity is critical to productivity—no matter which industry you're in. That's why ThinkCentre M70c has an array of I/O ports across of the front and rear of the device, plus secure wireless connectivity, too.

## EASIER MANAGEABILITY

ThinkCentre M70c is easy to deploy and easy to manage, allowing IT managers to reclaim their time and focus on what they do best. Lenovo offers a variety of pre-installed OS options, including Windows 10 Pro and Linux, which makes this PC ready to hit the ground running right out of the box. When you're responsible for managing several thousand devices at once, the ease and convenience of ThinkCentre M70c's centralized deployment and software updates can mean the difference between hours and days.

## SECURITY INSIDE AND OUT

ThinkCentre devices allow your employees to innovate fearlessly with the reinforced security of ThinkShield, the most comprehensive, end-to-end security solution on the market that combines industry-leading hardware, software, services, and processes to protect your ideas and your business. ThinkCentre M70c has built-in ThinkShield features, such as dTPM 2.0 chip, Smart USB protection, and individual USB port disablement, in addition to many more security features that can be customized to meet your unique needs. An array of locking solutions protect against device theft.

Lenovo

## purposeful design

ThinkCentre M70c comes with an optional vertical stand that raises the front of the PC for easier access to I/O ports and provides greater stability when multiple devices are connected to it.

## relentless innovation

We are inspired by our customers and what they want from our devices, and it shows in features like ICE 4.0, Smart USB protection, and much more.

## trusted quality

Lenovo's dedication to constantly improving product quality means rigorous in-house testing for durability and reliability, which results in our products achieving one million hours mean time between failure.
