# Poly Documentation

# Initialize the Poly Studio USB Device Using the Setup Wizard

When you start up the Poly Studio USB device for the first time, or after you factory reset the system, the setup wizard leads you through the minimum configuration steps.

## Prerequisite

Ask your network administrator for the provisioning server used in your deployment before you choose the **Server Type**.

| Note | If you select **Auto** provisioning mode, make sure that you already have the provisioning server address, user name, and password in your DHCP option 66 or 150. For example, `https://username:password@company.com`. |
|------|------|

## Procedure

1  Connect the Poly Studio USB device to your computer, then select the Poly Studio USB video bar tile from your Polycom Companion.

2  Enter the admin password in the **Password** field (the default password is `Polycom12#$`).

3  Accept the *End User License Agreement*, and click **Sign In**.

4  Change the default password:

- Select the **Simple Password** check box to enter a simple password.

- Enter a password that adheres to the on-screen requirements.

5  Select **Confirm**.

6  Select your country, and select **Next**.

7  **Optional:** Change the device name, or select **Skip**.

8  **Optional:** Configure Wi-Fi network settings, or select **Skip** to ignore the settings.

| Option | Description |
|--------|-------------|
| Wi-Fi Status | Selects **On** to enable the Wi-Fi function. |
| Wi-Fi List | Shows a list of available Wi-Fi networks. |
| Autoconnect | Selects **On** to connect to the specified Wi-Fi automatically when it's available |

| Option | Description |
| --- | --- |
| Join Other Network | Specifies the network name manually in the SSID field. |

9 **Optional:** Select **Skip** to ignore provisioning server settings, or select **Provisioning Mode** and choose one of the following options:

- **Disable**: Disables the provisioning mode.

- **Auto**: Gets the provisioning server URL from your DHCP option 66 or 150.

- **Manual**: Configure the following parameters:

| Parameter | Description |
| --- | --- |
| Server Type | Select a server type from the drop-down list: <br><br> Choose **Polycom Provisioning Services** for PDMS-E or Polycom RealPresence Resource Manager. <br><br> Choose **HTTPS Server** and **FTPS Server** for your own provisioning server. |
| Server Address | Specifies the server address |
| User name and Password | Specifies the user name and password to log in to the provisioning server |

10 Select **Finish**.
